Replaces Rates Dated 07-01-17

CITY OF SHELBY

SEWER SERVICE (CITY)

AVAILABILITY

Sewer service will be furnished to residential, commercial and industrial customers within the corporate limits of Shelby, if access to existing City facilities is feasible.

RATE

A. CUSTOMERS RECEIVING FULL REQUIREMENTS SHELBY CITY WATER SERVICE

Customer Charge Per Water Consumption Unit \$19.97 per billing period

Volume Charge (Per 1000 gallons) \$4.29

The Minimum Bill is the Customer Charge.

B. CUSTOMERS NOT RECEIVING FULL REQUIREMENTS SHELBY CITY WATER SERVICE

Charge negotiated on basis of estimated or measured discharge of wastewater into the sewer system.

Minimum Bill: (1) \$41.42 for estimated discharge of 5000 gallons or less per billing period.

(2) Rate under A. when actual measured discharge is required under D.

C. CUSTOMERS RECEIVING LOW PRESSURE SEWER PUMP SERVICE

Customer Charge Per Consumption Unit \$19.97 per billing period

Customer Pump Charge
per Consumption Unit \$44.41 per billing period

Volume Charge (Per 1000 gallons) \$ 4.29

The Minimum Bill is the Customer Charge.

D. See "Conditions" Paragraph on Reverse Side.

SCHEDULE C-10-20

CONDITIONS

Sewer service billing for customers who receive all water used from the City water supply system, is normally based on the entire amount of water metered and delivered by the City.

A customer who uses water received from sources other than the City water supply system and which water is discharged into the City sewer system, may be required to install and maintain, without expense to the City of Shelby, an acceptable device, or devices, for measuring the quantity of water received. The customer will pay a sewer service charge for such water discharged into the City water supply system.

A user of the City water system for residential or commercial use, no part of which reaches the City sanitary sewer system, may avoid the regular sewer charge by having a separate water meter installed to measure water used for this purpose.

In the event that a person or corporation discharging industrial wastes into the City sanitary sewer system produces evidence to the City Manager that more than 10% of the total annual volume of water used for all purposes does not reach the City sanitary sewer, an estimated percentage of total water consumption to be used in computing charges may be agreed upon between the City Manager and the persons discharging industrial wastes into said sewer.

A full sewer service charge will be made for water used to fill swimming pools, wading pools, and storage containers; unless such use is determined, at the time of delivery, by a measuring device other than the installed property water meter.

The Code of Ordinances of the City of Shelby, Chapter 44 Article IV, Sections 44-121 through 44-230, covers restrictions on the discharge of wastes into the City sewer system and surcharge(s) for the treatment of wastes which are potentially harmful to the system and/or involve extra processing costs.

In existing service where one meter serves more than one consumption unit, each unit will be considered to carry one customer charge per billing period, regardless of individual or aggregate consumption.
